Workout Tracker

User guide

Version 1.7.354

How to log sessions, read history, and keep a copy.
If this version does not match About > Version, this guide is stale.

Contents

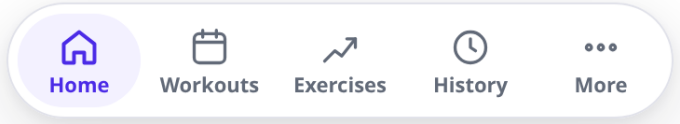

1. Log a workout
2. See this week
3. See the month
4. Open a session
5. Track a lift
6. History and export
7. Exercise library
8. Keep a copy
9. Phone settings

1. Log a workout

Five tabs at the bottom. One session per day. Start Workout always opens a new draft. Swipe down to dismiss a sheet.

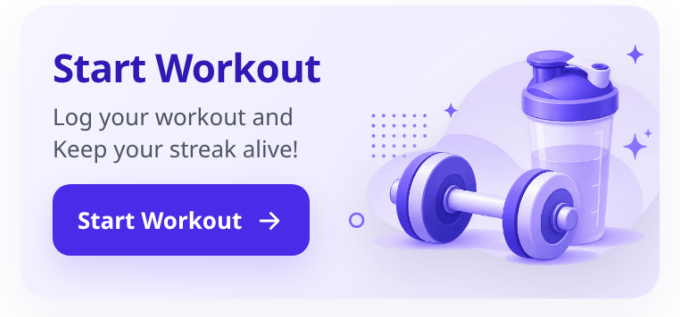

1. Tabs

Home, Workouts, Exercises, History, More.

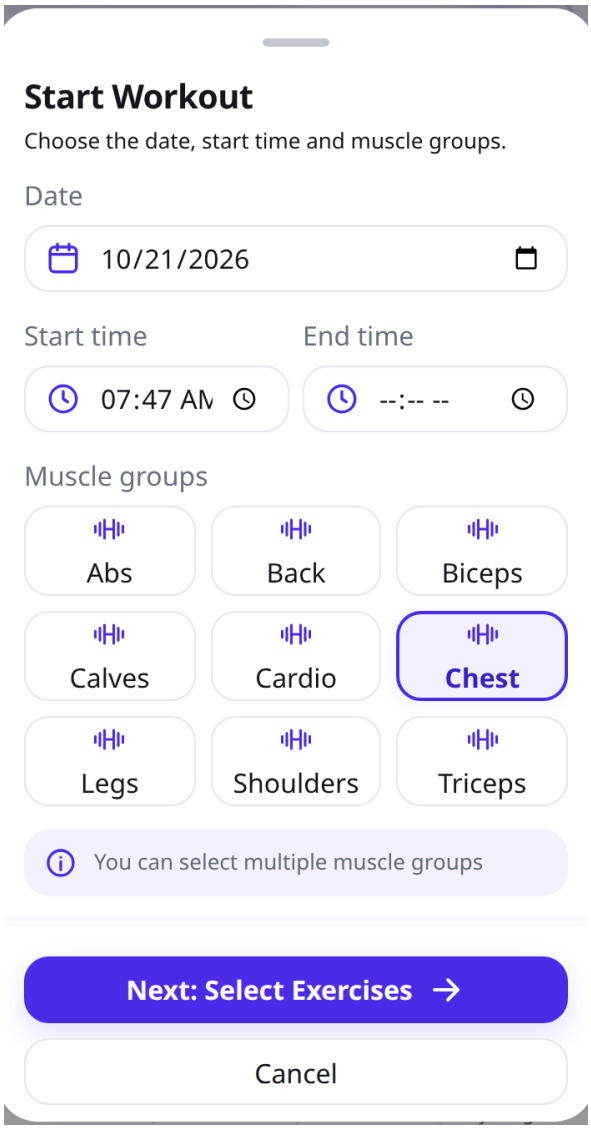

2. Start

Home > Start Workout.

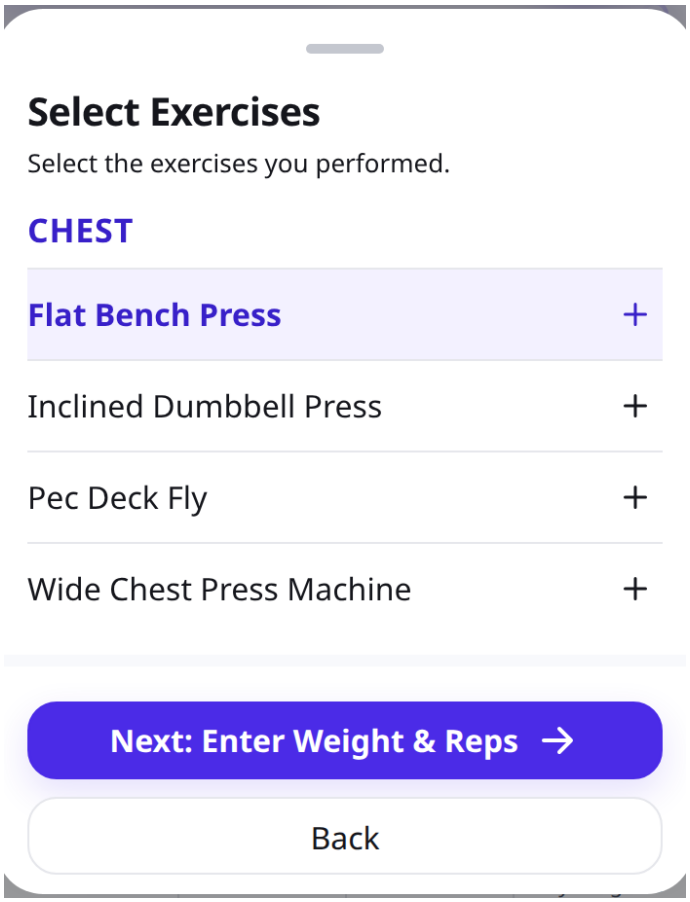

3. Date and muscles

Pick the day, times, and groups.

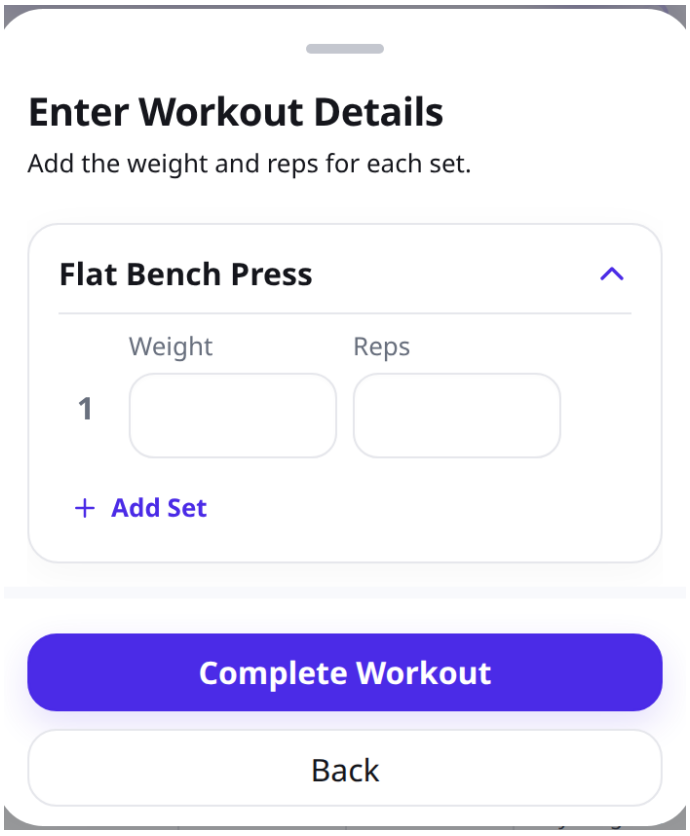

4. Exercises

Pick what you trained.

5. Sets

Weight and reps. 0 kg is 0 kg.

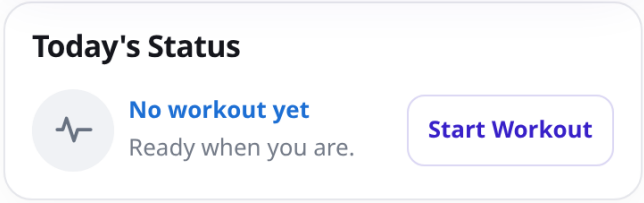

2. See this week

Home shows today, the week, and quick totals.

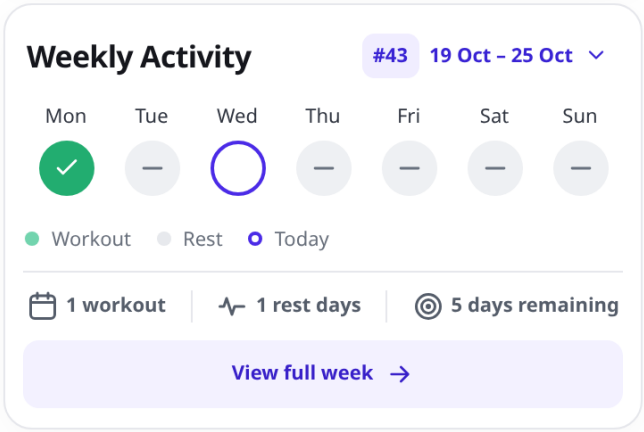

1. Today

Done, or not yet.

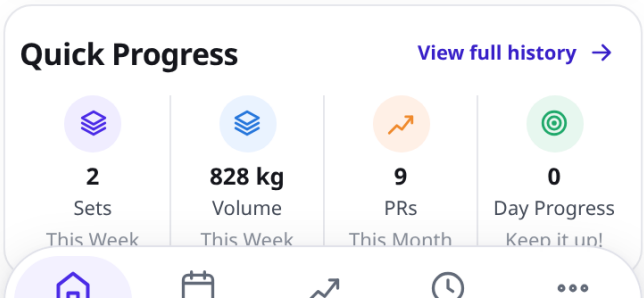

2. Weekly Activity

Green is a workout. Rest is days before today.

3. Quick Progress

This week's sets and volume.

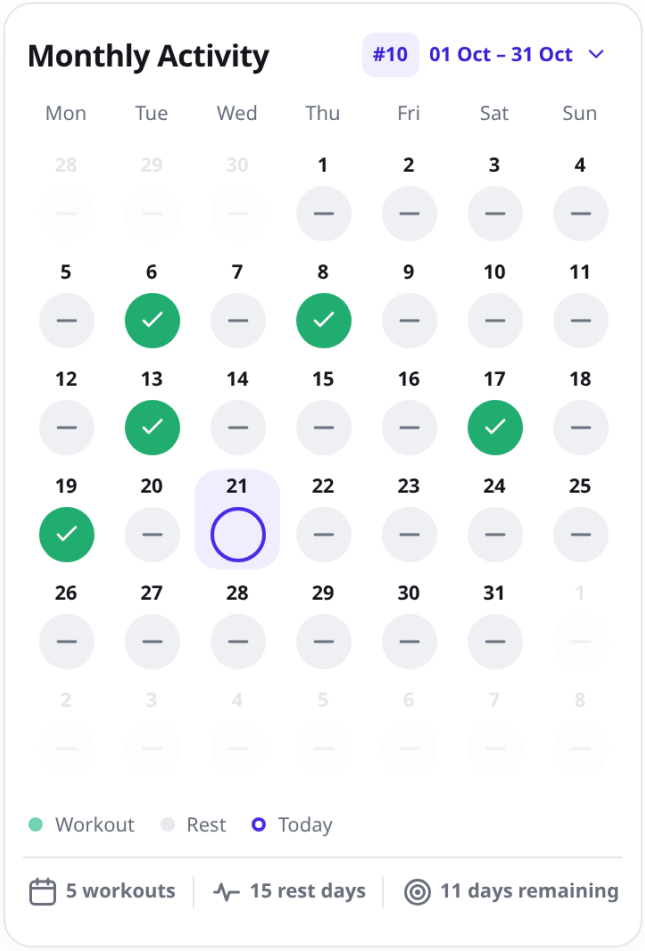

3. See the month

Workouts tab. Tap a day. Swipe the calendar to change month.

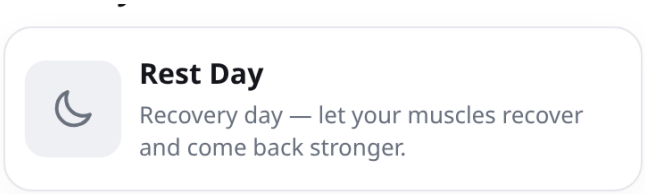

1. Monthly Activity

Green days have a session.

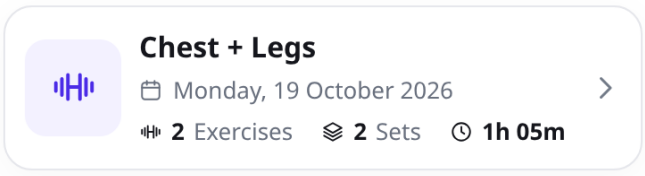

2. Rest day

No session on that date.

3. Workout card

Tap to open the session.

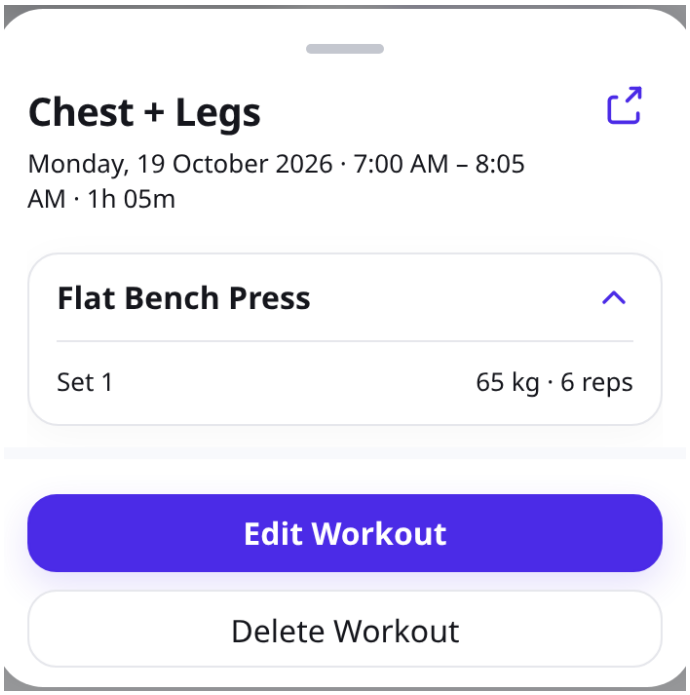

4. Open a session

Edit, delete, or export Excel. Deleted sessions go to Recycle for 30 days.

1. View workout

Sets, Edit, Delete, Excel.

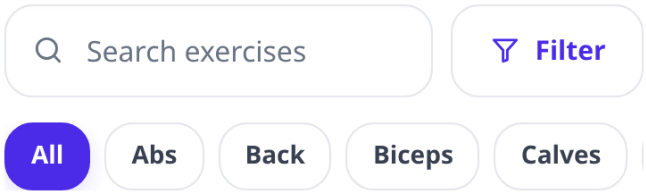

5. Track a lift

Exercises tab. Muscle chips after All, A to Z.

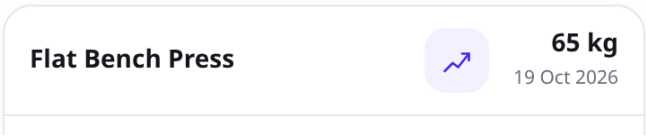

1. Find a lift

Search or filter.

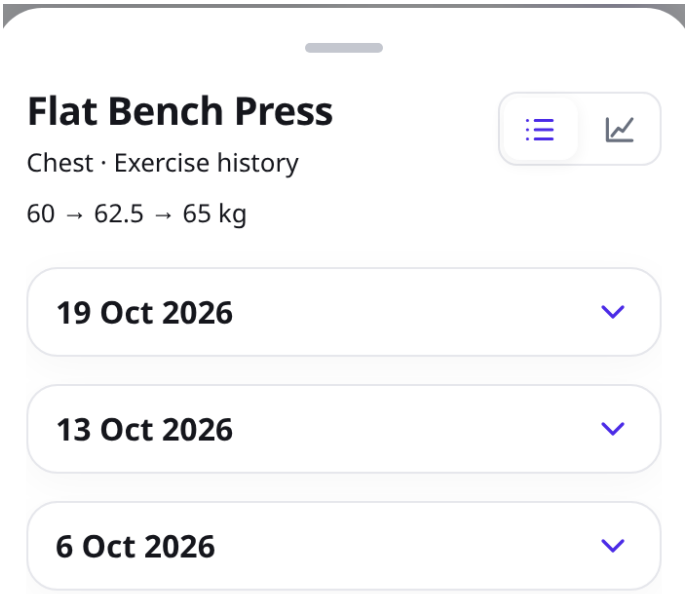

2. Latest load

Tap the row for history.

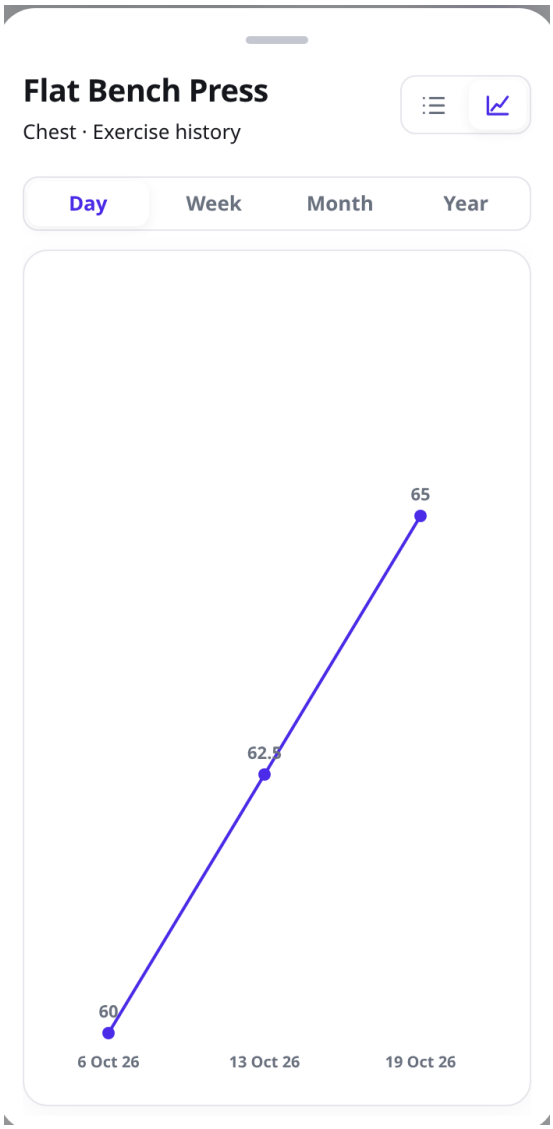

3. List

Every session of that lift.

4. Graph

Day, Week, Month, or Year.

6. History and export

Full log. Share icon saves Excel.

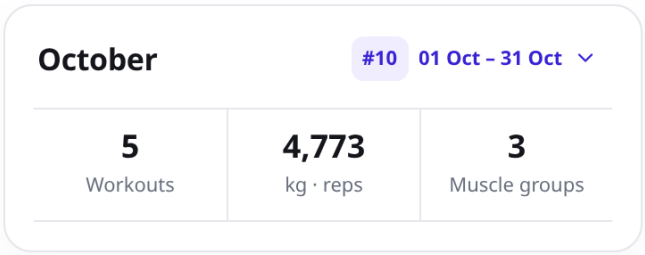

1. Export

History > share icon.

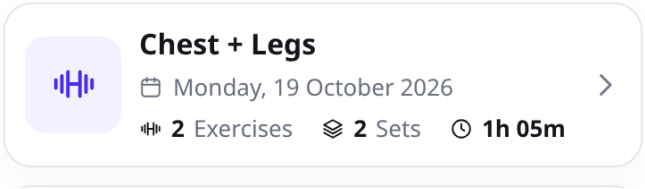

2. Month

Workouts, volume, muscle groups.

3. Log

Every session, newest first.

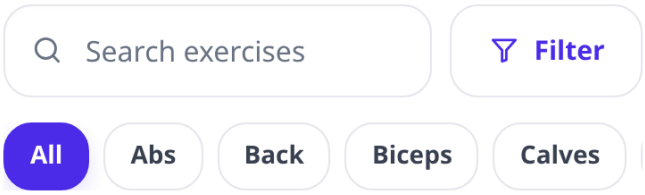

7. Exercise library

More > Exercise Library. Edit a name to rename, move, or delete. Recycle keeps deleted items 30 days.

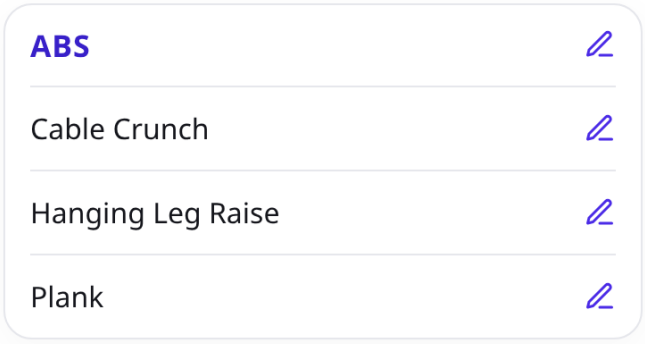

1. Find

Search or filter groups.

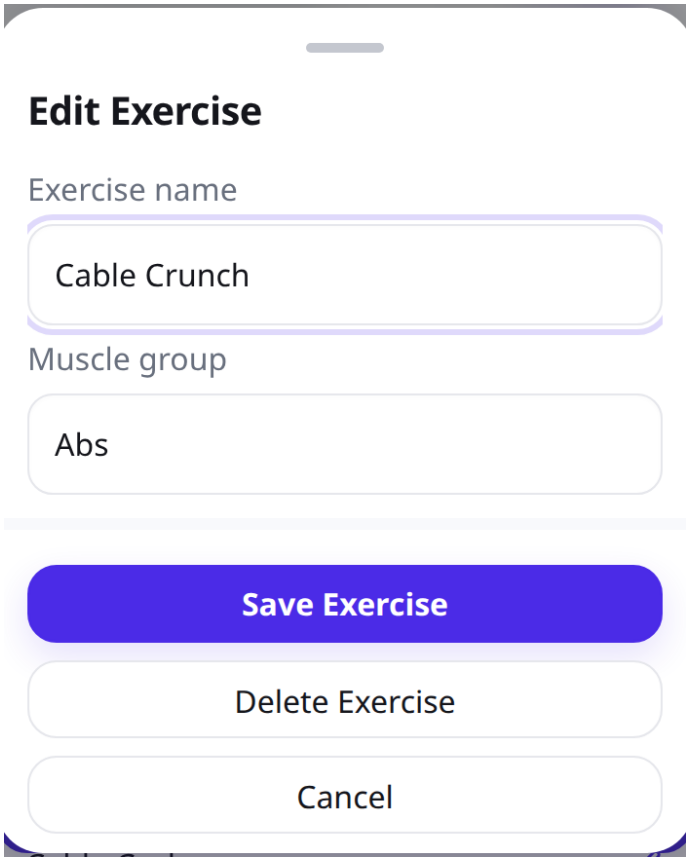

2. A group

Pencil opens edit.

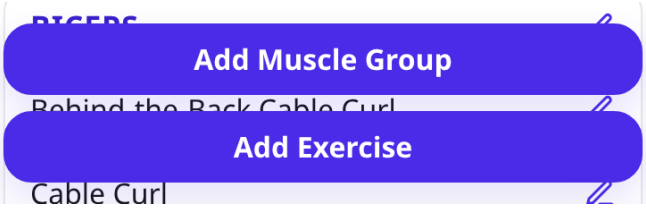

3. Edit or delete

Delete lives in the edit sheet.

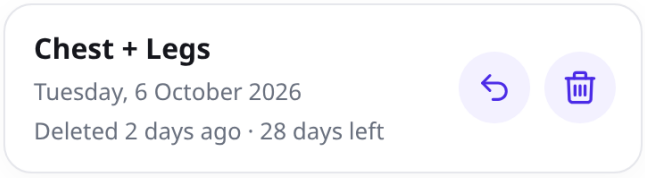

4. Add

New muscle group or exercise.

5. Recycle Bin

Restore or delete forever. Gone after 30 days.

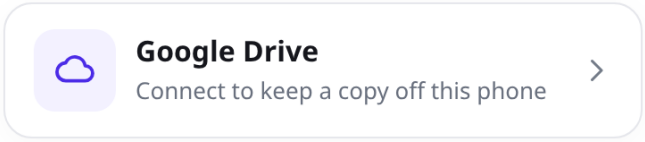

8. Keep a copy

JSON backup is a file on this phone. Drive is this phone to Drive. Restore replaces current data.

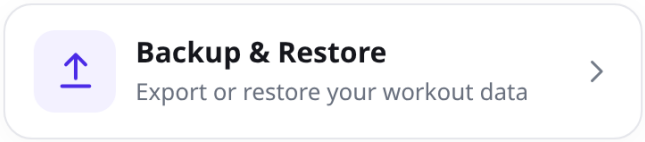

1. Google Drive

Connect to keep a copy off this phone.

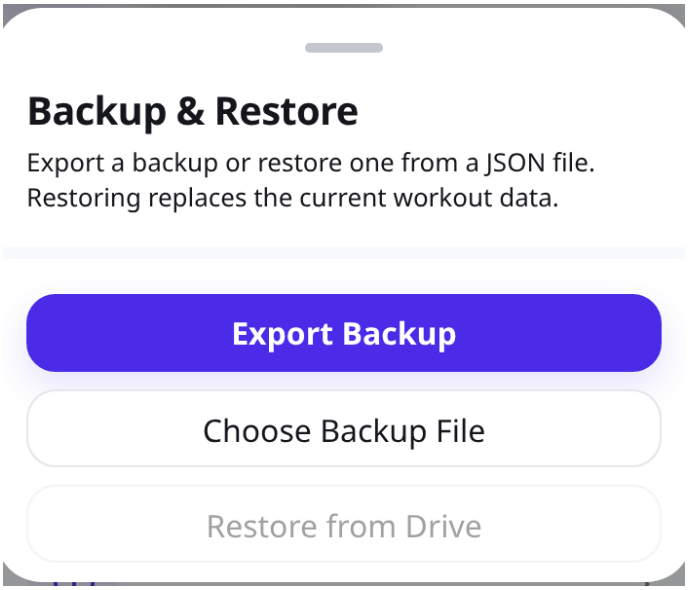

2. Backup & Restore

More > Backup & Restore.

3. Export or restore

Export, choose a file, or Restore from Drive.

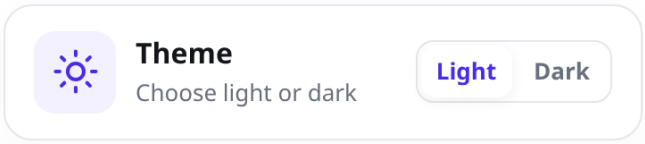

9. Phone settings

Theme and kg/lb stay on this phone. They are not in the Drive snapshot.

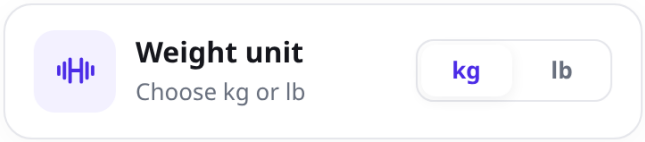

1. Theme

Light or dark.

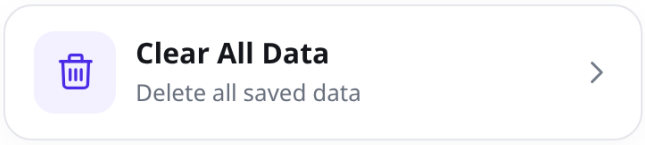

2. Weight unit

kg or lb.

3. Clear All Data

Wipes this phone. Drive is unchanged.
